Albion Park High School (Public, NSW)

Albion Park High School is a large comprehensive public secondary school located in the Illawarra region. It has a strong focus on inclusivity, community connection and supporting the diverse needs of students, including a significant Aboriginal and Torres Strait Islander student population. The school promotes wellbeing alongside academic achievement and offers a wide range of learning pathways, from traditional curriculum areas to vocational and applied learning. During my placement, I was able to build strong relationships with students, engage meaningfully in both classroom and playground settings, and contribute to learning through hands-on resources, practical demonstrations and student-focused pedagogy.

St Joseph's Catholic High School (Catholic, NSW)

St Joseph's Catholic High School is a co-educational Catholic secondary school in Albion Park, known for its pastoral care approach and commitment to holistic education grounded in Catholic values. The school fosters a supportive environment that encourages students to achieve excellence across spiritual, academic, cultural and sporting domains. Learning is framed by a strong sense of care, community and service. My experience at St Joseph's provided insight into faith-based education, pastoral programs and the integration of values-led teaching practices within curriculum delivery.
